Mizzou Events: Trusted User Agreement

Anyone with a UserID can access the calendar and add events. However, those events will need to be approved by a Calendar Administrator. A Trusted User will be able to bypass the approval process and post events directly to the live calendar.

MU faculty and staff (but not students) are eligible to obtain Trusted User status. Resource accounts will not be considered for Trusted User status. We require each Trusted User to complete training and sign this usage agreement, which will be kept on file by Web Communications. A copy will also be sent to the Trusted User's supervisor.

Initial	_ Trusted User agrees not to give out t events	heir personal UserID and password for th	e purpose of adding
Initial	_ Trusted User agrees to post only official university events for their own area(s) of responsibility		
Initial	_ Trusted User has read and agrees to follow all guidelines and policies as dictated by http://identity.missouri.edu/policies-guidelines		
Trusted User access will be revoked if the user posts personal events, commits branding infractions (such as uploading unapproved logos), repeatedly fails to copy edit events, misuses event types or filters, shares their password, or otherwise breaks university policy.			
Supervisor's n	name (to provide him/her with a copy o	of this agreement):	
Trusted User ((print):	_ Signature:	Date:
Trainer (print)):	Signature:	Date:
